Looks GREAT! Might be a little long...there might be few cuts, but better to have the freedom to cut than have to pad.

Well done!

Thanks Chris! We're trying to get everyone to get all costumes & props ready for this weekend, so that we can do a run-through that's as close to finish as possible. Do you still feel confident about us opening on the 17th? Or do you think we should push it back one more week?
