
Ron Breach!!!

So the place above ours started to leak again last night. I'm sorry. Did I say leak...I meant deluge from the unit above ours.

I have to stay here tomorrow for the plumber to fix stuff. He will have to cut a hole in our ceiling to try to get to the leak. Hopefully.

I say hopefully, because when I first moved in, we had the same problem...like the first two days I was in here. Not only that, I had CONSTANT plumbing issues in my last apartment.

SOOOO GROSS!!!!

Sorry I can't be there to help. If it's any consolation, I will be MISERABLE and totally grossed out.
