
Site Changes

Posted by Lyle - 2008/01/17 20:31

Some things need to be changed including this <http://www.berubians.com/content/view/16/32/> and the front page has the correct address to the new theater but when you click the link it shows you mapquest of the old theater. Just something to think about.

By the way, I am VERY impressed with and would also like to thank whoever is keeping up with the board.

Thanks for the bug report. It really helps. I think We've caught all the links to where the locations should be and fixed them.

Glad you like the site! Of course its always a work in progress. Right now we are trying to put together an auditions section.
