
Viewing the main page

Posted by Carolyn - 2008/01/18 18:33

Hola Liz. Uh...Mackenzie...

I'm not getting the full page when I log in. For whatever reason the far right column (the one that includes the rebuilding of the tres stage column) does not fall centered under the main header (the berubians with all the pics). It's cut off about a third in.

Do I need to change something in my viewing?

I hope you can understand what I'm talking about. I'm so super technologically UNSavvy. I'm sure there are better terms to describe all that, not to mention an easy fix, and likely something I'm doing wrong.

HELP!!!

=====

Sounds like you are using an old version of internet explorer. If you are on a Mac, Microsoft stopped making updates for the Mac version of internet explorer. Either way, I would use Firefox. It's the most secure of all browsers.

And ya can call me Liz whateva Mackenzie is just a stage name.

Same thing is happening to me...This actually should be fixed for people that only have internet explorer and can't download firefox. Just a suggestion...

Thanks L'Kenzie!!!

I thought it was just me...it usually is... :(
