
Sketual Harassment

I had the privilege to take in "Sketual Harassment" last night and it was fantastic. Well beyond what I thought it would be. Cast were all great and had a chemistry which made the entire show fun to watch. Some standup performances and skits. This show was more enjoyable than anything I've seen on SNL in quite some time. I'd highly recommend this show to anyone who's not yet had the pleasure of seeing it. BRAVO!
